1. The Soviet authorities have refused to accept several German-manufactured "Triumph" locomotives which were prepared by the Grivita workshop of the Romanian State Railroads on the ground that the repairs had not been executed according to specifications.
2. As a result of the refusal of the Russians to accept the locomotives the Grivita shop failed to fulfill its plan for January and February. Officials of the labor union have threatened the Grivita workers with loss of premium payments and have informed them that poor work may result in non-payment of wages.
